

Same As You

The Fray

Lying near you, swear you can feel 'em
Reach your hand and try to touch this skin
But it's just you breathing

Torn fabric, wrapped around you
Hands shaking, as you're reaching out
To cover that mirror now

No one can take this from you
No, we can't carry this for you
But you can stand if you want to
Or fall if you want to
I'll do feel same as you
You can dance if you want to
Or break if you want to
I do feel same as you
The same as you

I wasn't dizzy but you planned the future
Thought the river could never reach your home
Oh, how swiftly it comes

Laying here, naked in the moonlight
The cool water never quite touches your soul
Makes you want it all the more

No one can take this from you
No, we can't carry this for you
But you can stand if you want to
Or fall if you want to
I do feel same as you
You can dance if you want to
Or cry if you want to
I do feel same as you
The same as you

Ey, ey, ey

If you stay 'round, if you are staying
If you're blown , if you're on the run
If you fall out, if you want then fall
If you live on, if you want love

If you stay 'round, if you are staying
If you're blown out, if you're on the run
If you fall out, if you want then fall
If you live on, if you want love
