## Shadow and a Dancer

Hello old friend Do you remember when We would float on the summer wind And fall back to earth again

Hello love Remember that touch That skin on skin rush Sweeping after both of us

Like a shadow and a dancer We were looking for the answers Keeping perfect time Like a shadow and a dancer We know the summer thrill is gone But we've never been so in love Like a shadow and a dancer

We have stayed Like the Cascade Mountain range And Pacific Ocean waves Some things never change

And it's you and me And our bodies are a memory We're turning ever so slowly In the candlelight trembling

Like a shadow and a dancer We were looking for the answers Keeping perfect time Like a shadow and a dancer We know the summer thrill is gone But we've never been so in love Like a shadow and a dancer No, we've never been so in love Like a shadow and a dancer

A shadow and a dancer We are looking for the answer Keeping perfect time Like a shadow and a dancer We know summer thrill is gone But we've never been so in love

Oh, we've never Shadow and a dancer Looking for the answer
