

Can't Take That Away

The Friday Night Boys

Silence is easy
To say this is killing me
I'm sorry
You wasted a thousand tears on me
But something was missing
And I'm regretting it tonight
Pushing you away
I know you don't believe me
But I just wanna say

I remember conversations
Before I gave up on me
Well if it's any consolation
I remember everything
And you can't take that
No you can't take that
away, You were the one saved me
And you can't take that away
away, away, away, away...

They turned off the street lights
Before I could say goodbye
Cause I was a lost cause
You still kept me alive
So if you are listening
I'm regretting it tonight
Maybe it's too late
But if you ever could believe me
I just wanna say

I remember conversations
Before I gave up on me
And if it's any consolation
I remember everything
And you can't take that
No you can't take that
away, You were the one who saved
And you can't take that away
away, away, away, away...

I remember conversations

And if it's any consolation

I remember conversations
Before I gave up on me
And if it's any consolation
I remember everything
And you can't take that
No you can't take that
You can't that
No you can't take that
away, You were the one who saved
And you can't that away
away, away, away, away
away...
