

Banjo Bonnie

The Frogs

Banjo Bonnie
Laced with honey
Next to the corn bees in flight
They're nothing like the bee from your queen flowered teats
Banjo Bonnie
Father William's honey
Sweet and teeny buzzing around, you sexy thing
Your banjo's playing songs to attract all the boys
But you prefer girls -- which is natural
Banjo Bonnie
William, bring the honey
Her buttercorned loins are burning like bumble bee wax
The teeth of the local bees are becoming annoyed with you
You're taking all the business away
Your banjo playing so sweetly like the honey
So sweet and funny
Here comes the fire truck again
All the honey bees are gonna land you this time
You can't be put out by any fire truck I know of
That's right, 'cause it's
Banjo Bonnie
Your fanny is funny
When it's buttered up and eaten by William and the other honey
Bees laced with honey on their wings
And they're flying
Teats exposed
All around, everyone's laughing
But the dead bees you've eaten now
