

Christians Vs. The Indians

The Front Bottoms

I've done it before, she don't like it
Just shut all the doors and keep quiet
You think you need more, I'll supply it
You think you need more

I love what we had it got taken away
I love what we had it got taken away
And I won't lie, no, I won't lie

And I keep taking off my clothes
And putting them right back on
'Cause there's decisions to be made
And I won't, I won't play along

I've done it before, she don't like it
Just shut all the doors and keep quiet
I tried to explain, she won't buy it
So, I won't lie to you

It's a bootleg copy of a movie I've already seen
I'll probably leave before the ending
A bootleg copy of a movie I've already seen

And I keep taking off my clothes
And putting them right back on
'Cause there's decisions to be made
And I won't, I won't play along
No, I won't play along.

I've done it before, she don't like it
Just shut all the doors and keep quiet
You think you need more, I'll supply it
And I won't lie

And I keep taking off my clothes
And putting them right back on
'Cause there's decisions to be made
And I won't, I won't play along
No, I won't play along.
