

Jim Bogart

The Front Bottoms

I would sleep better on your floor
than I would ever in my bed
And if your carpet makes my face itch
It'd still be heaven in my head

I would play more than four chords
If it's a song that you might like
But I am not very good
So I would practice every night

And she said, "Sometimes, things just don't work out the way you want them to,
Sometimes things just don't work out the way they should flow through,
Sometimes things just don't work out the way you want them to,
Sometimes things just don't work out, it's better me than it is you."

"Break your neck, and I will love you like a bird that cannot fly. You will be fine,"
And she says, "Break your neck, and I will love you every night. You will be mine."

I would stop doing all those things the doctor tells me not to do
But I don't think he understands, I do all of these things for you
And you've got gold plastic on your shelf that they gave to everybody else
And you can say it says your name but I don't think that that would help

And she says, "Sometimes, things just don't work out the way you want them to,
Sometimes things just don't work out the way they should flow through,
Sometimes things just don't work out the way you want them to,
Sometimes things just don't work out, it's better me than it is you."

"Break your neck, and I will love you like a bird that cannot fly. You will be fine,"
And she says, "Break your neck, and I will love you every night. You will be mine."

And today we can do something that we've never done before
Yeah today we can do something more
And today we can do something that we've never done before

Done before

And today we can do something that we've never done before
Yeah today we can do something more
And today we can do something that we've never done before
Done before
