

Lonely Eyes

The Front Bottoms

You've got me stuck to where I'm sitting
Looking at your eyes
Then I know I'm so pathetic
I wouldn't move to save my life
They tell me that you're lonely
It's no surprise
When you walk around all day wearing those
Lonely lonely lonely lonely eyes

Well I try to tell you jokes
I'm afraid to cry
And if you need a little sunshine you can borrow some
of mine
It's okay if you're unhappy I would say before I leave
her
Just take a look around there's no one here that's
happy either

Lonely girl you are my world
And I could be anything you need
And if for some reason you don't feel like talking
I can just sit and enjoy your company
Your company

The days keep going by
And it doesn't get much better
She could be threatening to jump
And all of your friends would scream "let her"
They count on you to leave
Cause it has always been that way
But on the one day they close early
That's the one you want to stay

Lonely girl you are my world
And I could be anything you need
And if for some reason you don't feel like talking
I can just sit and enjoy your company
Your company

Lonely girl you are my world
And I could be anything you need
And if for some reason you don't feel like talking
I can just sit and enjoy your company
Your company, your company
