

The Supply Of Power (La La La)

The Front Bottoms

La la la la la la la la la la

Well they tell me drugs don't pay
And they say that there's no use
But I got a couple friends that say that that's not true
And they got wallets full of proof

I needed the money and it was nothing more
Than a little self-centered, self enhated youth
And now I'm in trouble, I'm leaving tomorrow
And I am taking you

La la la la la la la la la la

And I know what he's saying couldn't have been that funny
But you seem to be laughing quite loud
So I will sit and think of reasons that you think that
it's funny
But I will never figure it out

And you tell me that you're staying
But I know what you say ain't true
And then I thought I'd try to catch you with friction of
both our bodies
But then remembered that I was way too smooth

La la la la la la la la la la
