

Water-Gun-Knife

The Front Bottoms

There are things I wish you'd do more often
Like laugh and talk to me
I understand that everybody's got their problems
But you've seem to have a little more than anybody

There are things I think we will come to regret
And the majority of them are me
I know there are things that you have come to except
Bur right now, believe me, believe me, show me some
respect

And I know that you know me like nobody else
It's just hard to explain, I like to be by myself
And it's like having a question when no one will help
And you're just one of those books, there's a lot on
the shelf
And there are things that we could do to make ourselves
stand out
But we won't, no we won't

There are things I wish you wouldn't take from me
Like my cell phone, my wallet, my car keys, and my
dignity
I know you think that we've had too much to drink
But I haven't, let it go, let it be, let me enjoy the
party

There are things I think we will come to regret
And the majority of them are me
I know there are things that you have come to except
Bur right now, believe me, believe me, show me some
respect

And I know that you know me like nobody else
It's just hard to explain, I like to be by myself
And it's like having a question when no one will help
And you're just one of those books, there's a lot on
the shelf
And there are things that we could do to make ourselves

But we won't, no we won't
