

# Danger of the Water

The Futureheads

The beginning of the disaster was difficult to spot  
The speed of your reaction was too slow to make a difference  
Far too slow to make it stop

You got everything together, you sailed it down the river  
You said it was relaxing then you disappeared forever  
I can not remember, the times we were together  
Perhaps it's just the water, pulling both of us under

Now there's nothing by the river, but your washed up umbrella  
Not enough to make a difference, not enough to make it stop

It cut through the water as we watched it getting closer  
And you said that it would soon fall down the drain  
You said it didn't matter but then that is you all over  
And the danger of the water meant it wasn't worth the bother

Danger danger water water  
Danger danger water water  
Danger danger water water  
Danger danger water
