

# Jupiter

The Futureheads

When your life fills you with despair,  
You have to believe that there's good out there  
No enemies anywhere  
Then you are free

The first five thousand miles are the hardest steps to take  
Then your autopilot kicks in for the journey's sake  
You're impossible to break  
Impossible to overtake

You are not your job or your car  
You are a star  
Bigger than Jupiter, Jupiter, Jupiter  
Bigger than Jupiter, Jupiter, Jupiter  
You're not what you see or what you know  
You are drop it low, drop it low, heavy load  
Put it down and let it go  
Let it go, let it go, let it go, let it go  
Let it go, let it go, let it go, let it go

I need you to know that there's no struggle up in space  
Nothing out there stopping us from living live with grace  
We're impossible to trace,  
Impossible to replace

You are not your job or your car  
You are a star  
Bigger than Jupiter, Jupiter, Jupiter  
Bigger than Jupiter, Jupiter, Jupiter  
You're not what you see or what you know  
You are drop it low, drop it low, heavy load  
Put it down and let it go  
Let it go, let it go, let it go, let it go  
Let it go, let it go, let it go, let it go

You don't believe that you are Jupiter,  
You don't believe that you are anything  
It would appear you think I'm fucking right  
I counted the tears that landed in my face

There is always one more surprise  
When your limits are the skies  
One more

Jupiter, Jupiter, Jupiter, Jupiter,  
Jupiter, Jupiter, Jupiter, Jupiter

Jupiter, Jupiter, Jupiter, Jupiter

Jupiter, Jupiter, Jupiter, Jupiter

Jupiter, Jupiter, Jupiter, Jupiter

Jupiter, Jupiter, Jupiter, Jupiter
