

# Alone

## The Gathering

Now you see me getting better  
I'm right here on display  
And I'll make it a bit heavier  
By going all the way

Did you find it much easier  
So stoop to where I was  
With your power and your knowledge  
To leave me here

Alone...  
I'm all alone

Now's the time for being humble  
By holding you down on your knees  
I suspect you'll stay there and crumble  
Rather so then to be alone

Do you believe your heart?  
Trying in all around to find  
To find your way back inside

I will be there  
For you to care  
And you will find  
Peace of mind
