

## Areas

## The Gathering

People drifting from a distance  
People arrive and depart

Fall into an area

People appear through the twilight  
See them come in through the cold

Come into an area

Approaching me, approaching you  
Could this areas here feel now approaching to

Here they come, here they go  
From above, from below

There's a chance you may need  
somewhere sometime

People are moving to music  
Dancing the music profane

Fell into an area

People drifting from the distance  
People arrive and depart

Fall into an area

Into an area...
