

Crawling On Top

The Generators

Here comes the spider
Open up wider
Hunger has no patience
In the dark
It's gonna to start
And there will be no hesitations
It brings it with it heat
The taste is bitter sweet
It's all about the main attraction
When it comes for you
It comes for me
It will find its satisfaction

Crawling on top
It just can't stop
It's gotta go on
And on and on
Crawling on top
Don't wanna jump off
From dusk until dawn
Come crawling on top

It makes it's showing
It keeps on going
It appears
It has no resistance
Coming every night
Must hold on tight
It's got to show its conviction

Under the sheets
In between the heat
Were out to get stung
It opens its mouth
While pulses pound
Until the jobs done

Crawling on top
It just can't stop
It's gotta go on
And on and on
Crawling on top
Don't wanna jump off
From dusk until dawn
Come crawling on top
