Dying In A Rock N Roll Band

The Generators

Me and the guys
Used to play all the dives
Every Saturday night
We would make the stage come alive

We got picked up
And made a whole lotta bucks
But it all came apart
When we hit the top of the charts
One of the boys
Drank himself to death

Another lost his arm
In a highway accident
Nut I'm still out here
On this world wide tour
Giving the fans back
What they've paying for

I think I'm dying
In a Rock'n'Roll band
Oh I'm really dying
In a Rock'n'Roll band

Were always out here
And we're paying our dues

We're playing all the hits
That everyone knew
I'm a bit older and
I need a vacation
I got high blood pressure
And a heart complication

I think I'm dying
In a Rock'n'Roll band
Oh I'm really dying
In a Rock'n'Roll band
