

Here I Go

The Generators

I tried to keep it straight
But I swerved over all the lines
My intentions start off right
But my troubles aint far behind
What will St. Peter say
When he looks me in the eyes?
Will he cast me away
Or take my hand
My hand inside

Here I go
I'm on my way
I'm going back
To reapeat all the mistakes that I have made
Here I go
I'm on my way

Don't look to me for inspiration
All my hope is gone
Don't come to me for knowledge
Everything I know is wrong

I forgot all the lessons
That I should
I should have learned
I built up so many bridges
Only to make them burn

Here I go
I'm on my way
Going back
To repeat all the mistakes that I have made
Here I go
I'm on my way

Here I go
I'm on my way
Going back
To repeat all the mistakes that I have made
Here I go
I'm on my way

Here I go
I'm back in the game
Here I go
To relieve the pain
Here I go
