

I Stand In Doubt

The Generators

One billion souls staring up into the stars
Praying to a god
To save them from whom they are
Millions go missing at each other and every turn
Get lost in the words
Truth or fiction? In a book

Clutch on to symbols
Plea for miracles
Hope for some common good
In this unforgiving world

Buy back our innocence
We can repent from our sins
We can heal all our pain from television evangelists
Throw our trust in faith
That one day we will be saved
We can flush our dollars down the drain
For the modern day

Clutch on to symbols
Plea for miracles
Hope for some common good
In this unforgiving world

Show me a sign
Shed me some light
After this darkness
There'll be some paradise

I stand in doubt
I must admit
How can there be a god
In a world like this?
I stand and doubt
