

# Out Of The Shadows

The Generators

I've washed my hands of this  
Walked away from it  
I've got to come in clean  
Take me where the grass is green  
Burned all my bridges down  
Looking at 6 feet inside the ground  
I'm waiting for the sun to rise  
I'm looking out of brand new eyes

I'm out of the shadows  
I've fallen right out of the grey  
Out of the grey

No more dead end dose  
No more suicide notes  
No more darkest days  
Inside the storm  
Find the strength  
Been searching for a song  
One that brings ya back from  
Dead and gone  
One last chance  
It all hangs inside the balance

I'm out of the shadows  
I've fallen right out of the grey  
Out of the grey

Made my way out of the cold  
I bounced back  
But bouncing back got old  
I've jumped inside the flames  
Always knowing there was a price to pay  
I've taken a good look at the other side  
And it ain't that good
