

Ten Days Away

The Generators

Ten days away
No compromising
The bus keeps on driving
No other way
I'll be back soon
So hang out and wait

I tried to ring you on the telephone
Sent you a letter a million miles from home
Stare out the window
Going town to town
Kick back and wait for something going down

Which way do we go?
Long way home
What you got to show?
Long way home
This time is dead time
Long way home
I'm stuck at the traffic light

I've seen a lot over a lot of time
One million stories for the friends of mine
Another visit to a hotel room
Another night that I'm just passing through

Which way do you go?
Long way home
What you got to show?
Long way home
This time is dead time
Long way home
I'm stuck at another traffic light

Something is gotta give
Someone's gotta go
It's allright in front of you
Don't you know
Ten days away
Ten days away
Ten days away
Ten days away

No compromising
The bus keeps on driving
No other way
I'll be back soon
So hang out and wait
Ten days away
Ten days away
Ten days away
