Shake That Thing

The Georgia Satellites

Well, Billy was hip with the time to tip He said, ?Man you got to see her dance? The way she move to that funky groove Put something restless in your pants

I ran down to Miss Kitty Kat You know the place I mean For my Chiquita All the way from New Orleans She make you scream

The way she shake that thing Put my heart on a string The way she shake that thing

I layed eyes on a sweet Chiquita Boys, I'll never be the same She had that look can't be mistook Now the way she shook that frame

Made me holler mercy
Mercy don't do me no good
Girl give me such a hard time
Give me a case of wood
Oh, those clothes she wore

The way she shake that thing Put my heart on a string The way she shake that thing

Kitty Kat finally folded When Chiquita ran out on her own Been a couple of years gone down She took off for parts unknown

But every now and then, me and my one eyed friend We remember yesterday
Take our advice, you want somethin' nice
She ever comes your way, guarantee you'll say

The way she shake that thing
Put my heart on a string
The way she shake it, shake it, shake it
Shake it, shake it
