

Manimal

The Germs

I came into this world like a puzzled panther
Waiting to be caged
But something stood in the way
I was never quite tamed

I crossed the paths of right and wrong
And saw them take their toll
I saw armies that marched
And like animals they crawled

[Chorus]

Evolution is a process too slow
To save my soul
But I've got this creature on my back
And it just won't let go

If I am only an animal
Then I can do no wrong
But they say something better
So I've gotta hold on
