

## Better Half

The Get Up Kids

i saw my better half  
the better half of a decade  
slip through my hands inside her hands inside my pockets  
when she reached for her advatages i should have done something  
i saw my baby boy digging his own hole  
keeping alive family traditions  
when he lied about intentions i should have done something  
well  
i blame myself for everything  
it keeps my conscience clean  
i've got bandages to prove it
