Out of Reach

The Get Up Kids

Long way from home
Lost by an echo, I'd never of known
I've got pictures to prove I was there
but you dont care

Here's me overseas Cross the pond by the dover peaks I've smuggled myself into new nationalities think you'd be proud of me

There's room to believe out of sight, out of mind, out of reach start over, it's no way to begin

Long way from home
Lost by an echo, never of known
I've got pictures to prove I was there
but you dont care

There's room to believe out of sight, out of mind, out of reach, start over, start over, it's no way to begin

There's room to be leave out of sight, out of mind, out of reach start over, start over it's no way to begin, way to begin
