

## Stay Gone

The Get Up Kids

I'll fawn over photographs  
That you never would get to see  
Swallow your own neglect  
With your miserable company

Your daughter forgot her memories  
Your daughter forgot her  
Remember these

I'm over the precedent  
Of a false security  
No matter how I come back  
You can never be proud of me

It's too long to stay gone  
It's too long to stay gone

I don't regret what words were said-  
Deserved respect you never had  
Watching the world keep falling around you  
I don't expect your hand in this  
Under duress and influence  
Watching the world keep falling around you

I'll fawn over photographs  
That you never would get to see  
No matter how I come back  
You can never be proud of me

It's too long to stay gone  
It's too long to stay gone

I don't regret what words were said-  
Deserved respect you never had  
Watching the world keep falling around you  
I don't expect your hand in this  
Under duress and influence  
Watching the world keep falling around you

(around you, around you)  
I don't regret what words were said  
Deserved respect you never had  
Watching the world keep falling around you
