

## When It Dies

The Get Up Kids

As it sharpens when it's shimmering  
Every cut a song  
All the inner voices whispering  
They think I've done it wrong

I've got mind to say  
Let it go when it dies

As the pressure starts to escalate  
Be it fought or found  
Lack of patience when I'm desperate  
And never make a sound

I've got mind to say  
Let it go when it dies  
You don't have the faintest

A little magic, little mystery  
Never did no harm  
I ain't talking if you're twisting me  
You could break my arm

I've got mind to say  
Let it go when it dies  
You don't have the faintest  
I've got cruel ways  
I can show, let me try  
I know how to take it

Better days, bet on these  
The company that you keep

When did your heart stop beating?

We live, we lie
