

New Medicine (Stay With Me)

The Getaway Plan

Don't believe in anything
That's what we're told
That's what we're told
We fend for each other

Put your faith in medicine
It's all we know
It's all we know
We plead for ourselves

Stay with me
Just stay right here please

We could fall
With anything more than new medicine oh

But if you leave today we're leaving with you

Don't believe in anything
That's what we're told
That's what we're told
We plead for ourselves

But if you put your faith in medicine
You never know
You never know
The light could be found
Woah

We could fall
With anything more than new medicine oh
We'll fall for you now
For you know
For you

Stay with me
Oh...
Just stay with me...

We could fall
With anything more than new medicine oh
We'll fall for you now
For you know

We could fall
With anything more than new medicine oh
We'll fall for you now
For you know
For you...
