

Time

The Gift

I wish that time could stop here
To always have you with me
Time is running
Yes I know that one day time will end with this
I wish that time could stop here
To always have you with me
Time
Yes I know that one day time will end with this
You were the one who told me
You'd always be by my side
I think that time is running
I know that one day time will end with this
