

Water Skin

The Gift

Even I'm gone, I know you will be fine
We'll keep playing that act
Next time don't try
Even I'm gone, I know you will be fine
I'm sure we'll pick a new film
Next time don't smile
You care but you don't know when
You drink but you don't know why
You drive but you don't know where
You want but you don't know how

Feel that water touching your lips
Kissing your skin
Turns the scene complete
Feel that water burning your lips
Thrilling your skin
Turns the scene complete

Even I'm gone, I know you will be fine
We'll keep playing that act
Next time don't try
Even I'm gone, I know you will be fine
I'm sure we'll pick a new film
Next time don't smile
You're scared but you don't know when
You drown but you don't know why
You swim but you don't know
You don't know how

Feel that water touching your lips
Kissing your skin
Turns the scene complete
Feel that water burning your lips
Thrilling your skin
Turns the scene complete
