

Weekend

The Gift

He came and changed her life
And everything she
She felt inside
All the moments have
Have turned to gold
Have turned to gold
And she thought
Oh yes she thought
He was the one
All the days
Have... have run so fast
To the day
Oh to the day
The day he left
Listen... she's crying at the window
Listen... she's singing to the angels
You are a part of me
You are around me
Around me
Listen... listen... she's crying at the window
Listen... listen... she's singing to the angels
You are a part of me
Yes you are
You are around me
Around me
