

Stuck in My Car

The Go-Go's

Somewhere the sun is shining
Somewhere the moon is rising
I'm sitting here
Somewhere someone is laughing
Somewhere something is happening
I'm dying here
Let's go Let's go

Stuck in my car trying to get to you
Stuck in my car nothing I can do
Turn the radio up and scream along
Stuck in my car stuck in my car

Slow motion disaster
Wish I could go faster
I'm standing still
I know the world is spinning
But it never brings me any
Closer, closer to you
Let's go, let's go

Stuck in my car trying to get to you
Stuck in my car nothing I can do
Turn the radio up and scream along
Stuck in my car stuck in my car
Come on come on

Oooh get me out of here
Oooh I gotta go I gotta go
I gotta go
