

Those Days Are Over (the Godfathers)

The Godfathers

Those days are over, those days are over
Those days are over, those days are over
Nothing ever happens come what may
And snow never falls on Christmas Day
And all around I see is war
I can't stand this anymore
Those days are over, those days are over
Those days are over, those days are over
These are friendly times
These are strange times
Soldiers to the left of me, soldiers to the right
I can't take this anymore
Those days are over, those days are over
Those days are over, those days are over
Nothing ever changes for all we say
It's the same tomorrow as yesterday
Yes all around I see is war
I can't stand this anymore
Those days are over, those days are over
Those days are over, those days are over
