

Kill me

The Golden Filter

I fell for your lies
You hurt me all the time
Your name all wrong
You kill me
You go on and on and on
You kill me on
You kill me on

Lies, all your lies
You told me all the time
Your films, they want me
You follow every move
Every move I make

You kill me on
You kill me on
On and on and on
You kill me on
You kill me on
You kill me on
You kill me on
