Lotta Love (neil Young Cover)

The Good Life

La Ooh

It's going to take a lot of love To change the way things are It's going to take a lot of love Or we won't get too far So if you look in my direction And we don't see eye to eye My heart needs protection, and so do I

It's going to take a lot of love To get us through the night It's going to take a lot of love For things to turn out right So if you are there I hope you show up soon Because my head needs relating, not solitude

Got a lot of love Got a lot of love La la la la la la la la la Ooh

It's going to take a lot of love To change the way things are It's going to take a lot of love Or we won't get too far It's going to take a lot of love It's going to take a lot of love It's going to take a lot of love
