## Son Of Bum

## The Gourds

Expecting me to clean my house out Under my fridge I found the roach bug They were eating my potatoes They even got to raise a fambly

It ain't no failing I just want 'em out I live in filth and now I want 'em out They don't even hep me to pay my rent They even eat the cash I hadn't spent

The son of bum ain't like a stink bug They aren't like the rolly pollies They don't behave like a cicada But there better than the crab bug

If I could only dream about them
And bathe them in the new age light
I'd put cookies in my bedroom
And gladly let them spend night in my bed
In my bed
