Love Is What You Make It

The Grass Roots

Love is Love is what you make it You can't make or break it So don't you run Run and hide I said love is Love is what you make it And if you make it with me We'll make it all right Hey hey hey Lover Don't you run for cover Don't run to your mother No reason to Every time I said love is Love is what you make it And if you make it with me We'll make it all right Now you've been told Your blood runs cold So you've been holding back But every word That you have heard Tends to push you back But I remember what my mama told me a long time ago She said you'll reap what you sow Hey hey hey Love is Come on love is what you make it You can't make or break it So don't you run Run and hide I said love is Yeah love is what you make it And if you make it with me We'll make it all right We can't be On a way street I'd have to work it out 'Cause it takes two To pull it through And that's what love's about And I remember what my said to me a long time ago She said son you've got to reap just what you sow Hey hey hey Love is yeah Love is what you make it You can't make or break it So don't you run Run and hide because

Love is Love is what you make it Lord and if you make it with me We'll make it all right Hey hey hey Love is Love is what you make it You can't make or break it So don't you run Run and hide because Love is Love is what you make it And if you make it with me We'll make it all right Hey hey hey Love is Love is what you make it You can't make or break it So don't you run Run and hide I said love is Love is what you make it
