

# Change In Your Veins

The Growlers

I had a little bit of pity, then I stopped myself  
Kinda sucks that they'll never know  
I felt bad for my brothers, sleepwalking going nowhere  
Cause they're so afraid to grow

Give me cities and big kid toys  
Give me little girls and little boys  
Take a risk and feel some pain  
Put some change inside your veins

Drunk's alright, high is good, being man is great  
What you need is a little change  
Sleepin' without dreams, you got nothing to remember  
You're always gonna be the same

Give me cities and big kid toys  
Give me little girls and little boys  
Take a risk and feel some pain  
Put some change inside your veins

I wanna drag 'em by their long hair and peel up their eyes  
Wake them from their empty dreams  
Speed up the pulse, wake up the ghost  
Distant to the sleepy soul scream

Give me cities and big kid toys  
Give me little girls and little boys  
Take a risk and feel some pain  
Put some change inside your veins

I had a little bit of pity, then I stopped myself  
It kinda sucks that they'll never know  
I felt bad for my brothers, sleepwalking going nowhere  
Cause they're so afraid to grow

Give me cities and big kid toys  
Give me little girls and little boys  
Take a risk and feel some pain  
Put some change inside your veins
