

## Derka Blues

### The Growlers

I let you sleep in, let the sun beat through  
I sound like a creep but I love watching you  
Cause when nobody's around  
That's when you and I we own this town

When there's no more blues  
And my lungs feel bruised  
When we get into bed  
And our love's transfused  
Oh when nobody's around  
That's when you and I we own this town

When we stumble down the beach  
And spit at the moon  
Resting in the sand  
With our loveless group  
Fear of nothing, our hearts are blue  
You're my heart's boom  
Together our hearts coo  
Sweet as lovers too  
You and I and the moon

Aaahh

I let you sleep in, let the sun beat through  
I sound like a creep but I love watching you  
Cause when nobody's around  
That's when you and I we own this town  
We own this town  
Nobody around  
Just you and I  
Nobody around  
Just you and I
