

## Swallowed Whole

The Growlers

I was there too but I got out  
Some stood still and some layed down  
I saw the forming of a frozen mind  
I got out in the knick of time

I never dreamed that they'd be swallowed whole

My own friends are in there deep  
Pulling in on all of the wondering sheep  
My own friends are still in there deep  
Pulling in on all of the wondering sheep

I never dreamed that they'd be swallowed whole

The one's inside don't dare to ask  
How long the cold cloud will last

The one's inside they don't dare to ask  
How long the cold cloud will last

Can you even recall  
when you've last seen the sun  
Can you even remember the sun

I was there too but I got out  
Some stood still and some layed down  
I saw the forming of a frozen mind  
I got out in the knick of time

I never dreamed that they'd be swallowed whole

The one's inside don't dare to ask  
How long the cold cloud will last

The one's inside they don't dare to ask  
How long the cold cloud will last

Can you even recall  
when you've last seen the sun  
Can you even remember the sun
