

## Arrivederci Girl

The Guess Who

You know that you're steppin' on me  
Draggin' my bone to bed  
You know that you're real politely  
Kickin' me right in my head  
But I want to move  
So leave me alone  
Distress me  
And give somebody else your own kind of lovin'  
Your kind of movin'  
You're kinda thinkin' about the wrong things too  
Good-bye my baby  
Arrivederci girl to you
