

Diggin' Yourself

The Guess Who

Vote for Dan, Danny's the man
If anyone can Dan can,
He's the boy, honest and fine
Danny can turn all your water to wine

He's got that certain something everybody should try
Comes from always diggin' himself
So take that special moment from the right time of day
And live it till there's nothing left of it.

Said it before, say it again
Once you've been gone, It's so hard to go home
Nights for free, days for a dime
Don't get a bonus for blowin' your time

You're missin' out on something everybody should try
Gettin' round to diggin' yourself
So take that special moment from the right time of day
And live it till there's nothing left of it

You've paid for the things you know
You'll keep on payin' with time
Don't look for the "Ho, Ho, Ho"
Along with reason and rhyme

I don't wanna talk about it
