I may be just like Bill I'm up on the hill and I can't get down

I cry because you don't know
I cry because you will never know

just how dark can an animal be? how dark can an animal be?

Dark like darkness dark like a devil out in the woods now

I saw the light
that just buzzed
I saw the light
but, my brain just buzzed

I cry because you never know I cry because you will never know

just how black can an animal be? how black can an animal be?

Dark like darkness dark like a devil out in the woods now

Train I ride train I ride ride on me ride on me
