

# Promise Me

The Gun Club

Promise me  
Outside in the trees  
They're waiting tonight

Promise me  
While the searching light  
Moon has found me

Know it feels like  
The last time again

Promise me  
Someone who will promise me  
Stand in the dark and fight like me

Through eyes like fireflies  
Turn around and tell me  
It'll be alright  
Is it alright?

Promise me  
Don't cheat my soul  
When it returns to me

Promise me  
Give me the vision  
I was born to see

You know it feels like years since  
They burned me away  
You know feels like years since  
Turned my heart away

Yeah, it feels like years  
Feels like years  
Feels like years since  
Took my eyes away
