## The Great Divide

## The Gun Club

I saw you talking 'bout plagues and peoples you're on override you are lost on the Great Divide

You see that you're preaching old ideas that when worlds collide you are lost in the Great Divide now

and homeless in the street make you feel the freak and your future looks so bleak your ideal world becomes antique

Now, you're lost and you say standing, say we're equal but, the valley's wide and you are lost on the Great Divide

On the Great Divide on the Great Divide on the Great Divide on the Great Divide now
