

I Was In Love With You

The Gutter Twins

I was in love with you
I was in love with you

Your distant eyes
Innocence in smile
Hollow refrain
You're blue

I was in love with you
I was in love with you

You say you're mine
Come by my window
The car's parked outside
Where are you?

In love, in love
In love all night
You're letting it go, letting it go
Letting it go, letting it go

I was in love with you
I was in love with you

It's a lady's choice
Bring on the boys
Car's parked outside
Waiting, waiting
