I Was In Love With You

The Gutter Twins

I was in love with you I was in love with you

Your distant eyes Innocence in smile Hollow refrain You?re blue

I was in love with you I was in love with you

You say you're mine Come by my window The car?s parked outside Where are you?

In love, in love In love all night You're letting it go, letting it go Letting it go, letting it go

I was in love with you I was in love with you

It's a lady?s choice Bring on the boys Car?s parked outside Waiting, waiting
