

#1 Country Song

The Handsome Family

I remember the day my little brother brought you 'round
I even recall the color of your dress
Deep blue like the evening sky, I was captured, I confess
I didn't think you'd treat me like you did the rest

I remember the night you told me I was the one
Those loving words and the promises we made
But, before that night was done,
I'd find out you were just having fun

And from the start you never planned to stay.
Now darlin' I feel I'm going out of my mind
Can't last another day without you
I wish my foolish heart could find somebody new,
But I just can't stop loving you.
