

## 10,000 Weight In Gold

### The Head and the Heart

I was burned out and lost  
A dusty bulb, an abandoned lot  
And the nightttime was the worst  
It shows you all the things you've lost

There's no light in here now  
There's no light in here now

If you take the kids and go  
I can't blame you for the things you know  
And when I'm out there on the road  
I think you and those kids at home

There's no light in here now  
There's no light in here now

Well 10,000 weight in gold  
Never feels like treasure until you lose it all

Well I packed my bag for the road  
I grabbed my hat 'cause it's time, yes time is marching on  
And if you see me out on the road  
My bags are packed 'cause it's time, yes time is marching on

There's no light in here now  
There's no light in here now  
I was burned out and lost  
There's no light in here now  
I was burned out and lost  
There's no light in here now  
And the nightttime was the worst  
There's no light in here now  
I was burned out and lost
