

Sounds Like Hallelujah

The Head and the Heart

I'm just waiting on the sun
To close his eyes and call the night
So we can put all our differences aside

I'm just waiting on the moon
With all the stars and all it's gloom
We can watch it fall right back into place

So I won't keep myself around
Just to keep you warm

Momma don't put no gun in my hand
I don't wanna end up like these men
Momma don't put no gun in my hand
I don't wanna end up like these men

I'm not walking away
I'm just hearing what you're saying
For the first time
Sounds like Hallelujah for the first time
For the first time
Sounds like Hallelujah for the first time

And I'll miss you someday
I'll miss you someday
I'll miss you someday
I'll miss you someday
I'll miss you

I'm not walking away
I'm just hearing what you're saying
For the first time
Sounds like Hallelujah for the first time
For the first time
I'm singing Hallelujah for the first time
