

In The Morning

The Heavy

Now when you take me in the morning
In your eyes I see the sun rise baby
No more lies and if you're looking for maybe
Cause I love the way you take me

It seems like every day
That every time I wake
I see that look on your face
That indicate a taste
You got a tongue full of hunger
And eyes on your lover
Every time I sleep
I'll know I'm blessed with the summer

In the morning
When your eyes are like a sunrise baby
No lies you're gonna make me do the Swayze
Till the night cause I love the way you take me

You got me working overtime baby
But this man can't get enough
You got me begging please on my knees
I didn't know you could get so alive

In the morning
When your eyes are like a sunrise baby
No lies you're gonna make me do the Swayze
Till the night cause I love the way you take me

In the morning
When your eyes are like a sunrise baby
No lies you're gonna make me do the Swayze
Till the night cause I love the way you take me
