

Stuck

The Heavy

There was a frost when you left this morning
But there'll be fireworks when you come home
I never run from the early warning
I never answer to the alarm
'Cause it's the truth I can do without
Getting harder to admit
Love, I can do without
I'm up in my neck in it

I'm stuck
'Til you make your mind up
'Til you make your mind up
I'm stuck

Well you can shake it 'til it rains diamonds
And you can shake it 'til it turns gold
Will you shake all the bitter lies
Will it taste like lips of coal

'Cause it's the proof that without a doubt
It's too late to pray
Lover, I can't breathe it out
I'm up to my neck in this shit

I'm stuck
'Til you make your mind up
'Til you make your mind up
I'm stuck

And I don't know if I can do it by myself
I just feel like I'm responsible
And I don't know if I can do it by myself
I feel loved but I'm not capable
And how can I breathe
'Til you make your mind up
How can I think of leaving you when

I'm stuck
'Til you make your mind up
'Til you make your mind up
I'm stuck
I'm stuck
I'm stuck
